Div. 1.1. Title (1/1/15)

This Resolution shall be known as the “Teton County Land Development Regulations” and may also be referred to as “the LDRs” or “these LDRs.”

Div. 1.2. Authority (1/1/15)

The Board of County Commissioners of Teton County (hereinafter “County”) has the authority to adopt these LDRs in accordance with the Wyoming Constitution, Section 18-5-202 et. seq., Section 18-5-301 et. seq., Section 9-9-101, et. seq., and Section 34-12-101, et. seq., Wyoming Statutes, and such other authorities and provisions that are established in the statutory and common law of the State of Wyoming.

Div. 1.3. Purpose and Intent (1/1/15)

Based on the legislative discretion of the Board of County Commissioners, these LDRs are in accordance with the Jackson/Teton County Comprehensive Plan. Their purpose is to implement the Jackson/Teton County Comprehensive Plan and promote the health, safety, and general welfare of the present and future inhabitants of the community with the intent listed below.

1.3.1. Implement the Community Vision

Preserve and protect the area’s ecosystem in order to ensure a healthy environment, community, and economy for current and future generations.

1.3.2. Implement the Common Values of Community Character

(AMD2022-0004)

A. Ecosystem Stewardship

1. Maintain healthy populations of all native species and preserve the ability of future generations to enjoy the quality natural, scenic, and agricultural resources that largely define our community character.
2. ~~Consume less nonrenewable energy as a community in the future than we do today. Emit less greenhouse gases than we did in 2012.~~

B. Growth Management

1. Direct ~~at least 60% of~~ future growth into ~~a series of connected~~; Complete Neighborhoods ~~in order~~ to preserve ~~critical~~ habitat, scenery and open space ~~in our Rural Areas and provide workforce housing opportunities.~~
2. The Town of Jackson will continue to be the primary location for jobs, housing, shopping, educational, and cultural activities.

C. Quality of Life

1. Ensure a variety of workforce housing opportunities exist so that at least 65% of those employed locally also live locally.

2. Develop a sustainable, vibrant, stable and diversified local economy.
3. ~~Residents and visitors will safely, efficiently, and economically move within our community and throughout the region using alternative modes of transportation. Travel by walk, bike, carpool, or transit will be more convenient than travel by single-occupancy vehicle.~~
4. Timely, efficiently, and safely deliver quality services and facilities in a fiscally responsible and coordinated manner.

1.3.3. Implement the Illustration of Our Vision

- A. Achieve the desired future character identified for each Character District.
- B. Implement the policy objectives for each Character District.
- C. Achieve the character-defining features identified for each Subarea.

1.3.4. Predictable Regulations, Incentives, and Allowances

- A. Ensure standards are consistently applied to similar applications and circumstances.
- B. Ensure landowners, the public, and decision-makers know the amount, location, and type of growth to expect.
- C. Use data analysis and best practices to inform standards and implement the adaptive management philosophy of the Growth Management Program.

1.3.5. Coordination Between Jurisdictions

- A. Implement the joint Town/County Vision through coordinated, supportive actions.
- B. Maintain a common structure, format, and definitions in Town and County LDRs.

Div. 1.4. Organization of the LDRs (7/18/18)

These LDRs constitute the County's zoning and subdivision regulations. They have two organizing principles. Primarily, they are organized by zone in order to implement and emphasize the community's character-based planning approach. Secondly, to provide ease of use, they are organized to answer three questions:

- What can be built or physically developed?
- What uses are allowed?
- How can the land be developed or subdivided?

Div. 3.2. Rural Area Character Zones

3.2.1. Rules Applicable to All Rural Area Character Zones (4/1/16AMD2022-0004)

A. Rules of Measurement

1. **Gross Site Area.** All measurements in the rural character zones shall use Gross Site Area instead of Base Site Area or Adjusted Site Area.

B. Sites with Multiple Lots of Record

Sites comprised of multiple lots of record in the rural character zones shall meet the following standards.

1. **Agriculture Exempt.** These standards of this Section 3.2.1.B. shall not apply to agriculture use, physical development associated with agriculture use, and utilization of agriculture exemptions.
2. **Design as a single site.** A site comprised of multiple lots of record shall be reviewed as a whole for purposes of determining the most appropriate location for development or use.
3. **Restriction Required.** Area required to entitle physical development or use that is on a lot of record other than the primary lot of record of the physical development or use shall meet the following standards.
 - a. It shall be restricted through an instrument approved by the County Attorney and recorded against the lot of record.
 - b. The restriction shall terminate if the physical development is removed or the use is abandoned.

D. Development Options and Subdivision

Standards applicable to development options and subdivision are provided in this subsection. Where a cross-reference is listed see the referenced division or section for additional standards. All standards in Article 7 are applicable unless stated otherwise.

1. Allowed Development and Subdivision Options							
Option	Lot Size (min)	Rural Area (min)	Conserv. Area (min)	Develop. Area (max)	Density (max)	Additional Floor Area (max)	Strds.
Subdivision Options							
Land Division	35 ac	n/a	n/a	n/a	n/a	n/a	(7.2.3.)

- b). **Larger Units.** A maximum of 1 ARU larger than 850 sf of habitable floor area is allowed per 35 acres of gross site area of nonresidential use. This allowed ARU density is in addition to the base density of allowed principal residential use.
- c). **Floor Area Exempt.** Floor area in an ARU accessory to a non-residential use is exempt from maximum floor area calculations.

EXAMPLE: A 140 acre site in agriculture is entitled to 4 detached single-family units ($140/35=4$) as well as 4 ARUs accessory to the agriculture use ($140/35=4$) that are greater than 850 sf of habitable floor area. The site would also be allowed 2 additional ARUs less than 850 sf of habitable floor area, so long as they were accessory to the agriculture use determined to be secondary and subordinate to the principal use. The floor area in the 6 ARUs would not count against the maximum floor area of 42,688 sf allowed on 140 acres.

- iii. **Occupancy of Larger Units.** An ARU larger than 850 sf shall meet the following occupancy standards.
 - a). The occupant of the ARU shall be employed by the operator of the nonresidential use and work in the nonresidential use at least 20 hours per week for a minimum of 3 months a year. In addition, the immediate family of the occupant may also reside in the residential unit.
 - b). When not occupied by an employee of the nonresidential use, the ARU may be rented to others. Such rental shall be for a period of at least 31 days.
- 7. **Nonhabitable Floor Area Exemption for Historic Structures.** Nonhabitable floor area shall be exempt from maximum floor area if the floor area is in a building that meets all the following standards.
 - a). The building is included on the Teton County Historic Preservation Board (TCHPB) list of historically significant properties or is otherwise deemed in writing by the TCHPB to be historically significant.
 - b). The building is located at its original site. A building is at its original site if it is within the development area that existed during the building's period of historical significance, as found by the TCHPB in its determination of historical significance. The building may be moved within the current parcel boundaries of the original site.
 - c). Modifications to the building shall be approved by the TCHPB in order to retain the exemption.

3.3.4. Suburban - County (S-TC) Zone (1/4/21AMD2022-0004)

A. Intent

The purpose of the Suburban - County (S-TC) zone is to provide for places with enough open space and sufficient lot size to provide a moderate predominance of landscape over buildings, where there is less human interaction ~~that~~ than in the Urban Zones, where a stronger sense of privacy is maintained through building orientation and landscaping, and where shared open space is provided. The intent is to provide for low to moderate density residential development with a range of residential uses, and uses associated with residential uses.

B. Physical Development

Standards applicable to physical development in the S-TC zone are provided or referenced below. Where a cross reference is provided, please see the referenced division or section for additional standards applicable in the S-TC zone. This Subsection is intended to indicate all of the physical development standards applicable in the S-TC zone, however, all standards in Article 5. are applicable in the S-TC zone, unless stated otherwise.

scenic analyses performed as part of the design of the easement. Under no circumstances, however, shall the setback from streams be less than 50 feet.

3. Development of Essential Facilities

- a. **Waterbodies.** Certain water dependent uses, bona fide stream restoration and enhancement, and essential road or utility crossings must be located in or adjacent to waterbodies. These may be permitted provided all physical development meet the following requirements.
 - i. **Flood Control, Irrigation, or Essential Crossings.** Only physical development that is essential to flood control or irrigation, bona fide stream restoration and enhancement, or essential road or utility crossings shall be permitted.
 - a). Essential Crossings. Infrastructure that is deemed essential may be located in, across, or adjacent to a water body if there is no practicable alternative. It is not required that the subject road or utility cross within and then out of the waterbody setback for it to be deemed an essential crossing. Crossing means traversing within the natural resource setback boundary line.
 - ii. **Not for Human Habitation.** Structures shall not be intended or designed for human habitation.
 - iii. **Minimize Negative Impacts on Wildlife.** All physical development and use shall be designed to minimize negative impacts on wildlife.
- b. **Wetlands.** Wetlands may be physically developed or used under the following circumstances. Notwithstanding, receipt of a local permit does not absolve an applicant from obtaining all other State or Federal permits necessary to develop wetlands.
 - i. **High-Intensity Use Degrades Wetland/ Wetland Agriculture-Induced.** Where the intensity of adjoining use(s) cause the retained wetlands to become degraded habitats and the wetland area is suitable for physical development or use due to planning, location, and other factors, or where the wetland is induced by irrigation.
 - ii. **Necessary to Reshape Wetland to Provide Building Site.** Where, due to the shape of the lot of record and its interaction with topography, it is necessary to reshape the wetland boundary to provide a building envelope, filling up to 5% of the wetland on the lot of record, not to exceed 1 acre, is permitted.
 - iii. **Essential Crossings When No Alternate Site.** Essential utility and road crossings shall be permitted to impact wetlands where it is demonstrated that the proposed crossings cannot be practically located without impacting wetlands.

4. Discouraging unnatural wildlife behavior, thereby reducing the number of nuisance animals that have to be relocated or destroyed when they frequent residential areas or otherwise come into harmful or threatening contact with humans and domestic animals; and
5. Respecting the wild behaviors of the animals' nature.

C. Prohibitions

1. **Supplemental Feeding Prohibited.** No person shall ~~knowingly or intentionally~~ provide supplemental feed to wildlife, unless specifically authorized by an agency of either the State of Wyoming or the United States of America. Supplemental feed includes any human food, pet food, hay, forage product or supplement, grain, honey, seed or birdseed, salt or mineral licks, or other supplemental feed made available to wildlife.
2. **Wildlife Attractants prohibited.** No person shall allow for the unintentional attraction and feeding of wildlife by allowing access to attractants on their property, including pet food, garbage, seed or birdseed, or other attractant made available to wildlife.
3. **Ornamental (non harvested for food), Non-Native Fruit Bearing Trees (including crabapples and cherries) Shall Not be Planted.** Existing ornamental, non-native fruit bearing trees shall be managed to prohibit large mammals from obtaining food rewards, and therefore, shall be either properly fenced and/or maintained with complete harvesting as soon as fruit is available. All exclusionary fencing shall be properly maintained and comply with the requirements of Div. 5.1.2 for exclusionary fencing.
4. **Bird Feeders.** No person shall install or keep a bird feeder on their property, unless the bird feeder is inaccessible to any wildlife other than birds.
5. In the event any property and / or service area associated with the property shall be found to contain any wildlife attractant(s) not otherwise specified in the foregoing standards, the attractant(s) shall be removed or secured consistent with the foregoing standards within 15 days notice unless an alternate time frame is agreed to with the county code enforcement officer.

D. Exemptions

1. The normal feeding of livestock and/or the practice of raising crops and crop aftermath, including hay, alfalfa and grains, produced, harvested, stored or fed to domestic livestock in accordance with normal agricultural practices as defined in Section 6.1.3.B. There is a presumption that on land taxed as agricultural land, that the alleged feeding is exempt from this regulation; or
2. The cultivation of a lawn and/or garden, and/or the provision of birdfeeders in compliance with Sec. 5.1.3.C.4 in which the bird food is made unavailable to any wildlife except birds.

E. Bear-Resistant Standards

1. Bear-Resistant Trash Container Required. Beginning 7/1/2022, all trash shall be properly stored in a certified bear-resistant self-locking container or dumpster.
 - a. A self-locking **certified** bear-resistant container or dumpster is one that has passed ~~is either certified by~~ the Interagency Grizzly Bear Committee (IGBC) and has successfully passed the testing program at time of purchase, ~~or has been approved by an alternative organization designated by the County and protocols recited in the Bear-Resistant Products Testing Program~~. A list of certified bear-resistant containers and dumpsters and the manufacturers that produce these products is available in the Teton County Planning and Building Services Department and at this website, <http://igbconline.org/bear-resistant-products/>.
 - b. If trash is transferred from the property to the trash transfer station or landfill directly by the property owner or property lessee, trash may be stored in another container as long as the container is stored in a bear-resistant building or enclosure at all times while on the property.
 - c. All trash receptacles at construction sites for trash that includes food, food wrappers, or other bear attractants shall be bear-resistant. Containers shall be kept closed and latched at all times. Non-bear-resistant dumpsters or trailer may be used to store construction trash that does not contain bear-attractants, as per LDR 6.4.2(B)(4).
 - d. A certified bear resistant self-locking container or dumpster shall be kept in good working order and shall not be altered outside the original manufacturers specifications in place when the container received its certification.
2. Bear-Resistant Building, Enclosure, and Fencing Requirements
 - a. The following attractants shall be stored exclusively inside bear-resistant buildings, fencing, or enclosures.
 - i. Grease storage containers and stored foods for nonresidential food/drink preparation and service;
 - ii. All backyard chicken operations including chicken food storage;
 - iii. Apiaries;
 - iv. Food compost containers or piles;
 - v. Livestock and fish food;
 - vi. Commercial dumpster, if not in self locking certified bear resistant dumpster.
 - b. A bear-resistant building or enclosure is one that consists of and/or contains:

D. Manmade Landforms

1. **Intent.** Manmade landforms are used to screen a structure, absorb sound, or reuse excavated material on site. The intent of this subsection is to establish standards to ensure that manmade landforms do not negatively impact wildlife, appear to be naturally occurring, and are consistent with surrounding features. It is the intent that compliance with this subsection constitutes conformance to general natural landforms (Section 5.7.2.A.4) and minimization of cut and fill (Section 5.7.2.A.9).
2. **Berm.** A berm that is 4 feet in height or greater shall meet the following standards.
 - a. **Location**
 - i. A berm shall meet all natural resource setbacks.
 - ii. A berm shall meet side and rear site development setbacks for the site (however, a berm shall not be considered site development).
 - iii. A berm shall have a street setback of 5 feet for a road classified by the County Engineer as major local or greater.
 - b. **Outward Slope.** The ends of the berm and side of the berm facing out of the property shall meet the following standards.
 - i. **SRO.** Inside the SRO a berm shall have an outward slope no steeper than 20:1.
 - ii. **Outside the SRO**
 - a). A berm facing a side or rear lot line shall have an outward slope no steeper than 5 (horizontal) : 1 (vertical) slope.
 - b). A berm facing a front lot line shall have an outward slope no steeper than 2 (horizontal) : 1 (vertical) slope.
 - c. **Maximum Height.** The maximum height of a berm at any point, as measured from the nearest point of natural grade to the top of the crown of the berm, shall be 6 feet; except that the following berms shall not exceed 10 feet.
 - i. A berm in the street yard; or
 - ii. A berm in the R-1, R-2, or R-TC zones.
 - d. **Undulation.** Berms shall be shaped to emulate natural undulation in terrain rather than appear monolithic, pyramidal, or extruded. In addition, a berm facing a side or rear lot line shall meet the following standards.
 - i. The berm height shall not exceed 4 feet for a continuous berm facade width of greater than 100 feet.
 - ii. If the overall berm facade width exceeds 100 feet, at least 25% of the berm facade width shall have a height no greater than 4 feet.

Teton County area, bald eagles select nest sites which provide maximum foraging opportunity. Generally, bald eagles return annually to nest in the same area. This is the result of a unique combination of environmental factors that make a specific nest area best suited for reproduction.

- g. **Crucial Nesting Habitat Essential to Survival.** The Snake River floodplain between Moose and Palisades Reservoir and its associated riparian zone represents crucial nesting habitat for the bald eagle. It is crucial to the survival of bald eagles in Teton County that this habitat be protected from the impacts of development. The loss of this habitat would profoundly impact and detrimentally modify the behavior patterns of bald eagles, including their feeding, breeding, and reproductive capabilities.
- h. **Spring, Summer, and Fall Habitat Occurs in Riparian Areas.** During spring, summer, and fall, bald eagles forage primarily in riparian areas for fish, waterfowl, and other prey items.
- i. **Winter Habitat Is Important.** During winter, heavy snow accumulation and freezing water surfaces reduces the availability of spring, summer, and fall habitat. At these times, bald eagles forage on wild ungulate and livestock carrion, supplemented by fish and waterfowl carcasses. Ungulate carrion is readily available but sparsely distributed on ungulate winter ranges, meaning that in addition to its nesting habitat, the crucial ungulate winter ranges also become critical to the bald eagle's survival.
- j. **Additional Crucial Winter Habitat Essential to Survival.** It is vital that bald eagle crucial winter habitat be protected to ensure the survival of this species in Teton County.

D. Applicability of NRO Standards

In addition to all other standards required by these LDRs, all physical development, use, development options and subdivision within the NRO shall comply with all standards of this Section, unless exempted below. Demonstration of compliance with the standards of this Section shall come from a qualified professional, even if an EA is exempt.

- 1. **Alterations and Additions.** Structural alterations and additions to existing structures shall be exempt from the standards of this Section.
- 2. **NC-TC Zoned Lands.** All physical development, use, and development options, except new subdivisions, habitat ponds, and berms, within the NC-TC zone, or within the WHB, NR-1, R-1, R-2 or R-3 zones on land zoned NC-TC on March 31, 2016, shall be exempt from the standards of this Section, except that G.4., G.5., G.6., and Sec. 5.1.2. shall apply.
- 3. **Agricultural Operations.** Agricultural operations and uses meeting the standards for exemption outlined in Section 6.1.3.B. shall be exempt from the standards of this Section.

Div. 5.4. Natural Hazard Protection Standards

The purpose of this Division is to limit development in naturally hazardous areas.

Development in hazardous areas threatens the health, safety and welfare of human

inhabitants. Steep slopes, poor soils, avalanche chutes, floodplains, dense forest and areas along fault lines offer unique opportunities for interaction with the environment, but when natural events do occur in these areas the results can be disastrous.

5.4.1. Steep Slopes (1/1/17)

A. Slopes in Excess of 30%

No physical development shall be permitted on natural slopes in excess of 30%.

B. Exceptions

1. **Manmade Slopes.** Physical development on manmade slopes is permitted, provided that the proposed finish grade complies with all other applicable standards of these LDRs.
2. **Small Slopes.** Physical development of isolated slopes that cover less than 1,000 square feet and have less than 10 feet of elevation change is permitted.
3. **Essential Access.** Physical development of steep slopes is permitted to provide essential access for vehicles and/or utilities when no other alternative access exists.

5.4.2. Unstable Soils (1/1/15)

No physical development, use, development option, or subdivision shall be permitted on unstable soil as determined by the County Engineer except under the following conditions:

A. Potential for Movement Only in Shallow Surface Area that Can Be Controlled

When the potential for soil movement is only in a shallow surface area and risk to the physical development can be prevented with appropriate anchoring to a solid substrate; or

B. Instability Limited

The instability is limited to localized slumpage at cuts or foundations and appropriate revegetation, drainage, and structural devices can prevent increased instability; and

C. Not in an Avalanche Chute

The proposed developed area is not in an avalanche chute.

6.1.2. Classification of Uses (~~1/4/21~~ AMD2022-0004)

A. Definition of Use

Use means the purpose for which a site or structure is occupied or maintained.

There are ~~three~~ five categories of uses: principal, incidental, accessory, primary, and temporary.

B. Classification of Uses

1. **Principal Use.** A principal use is a use that may exist as the sole use of the property. More than one principal use may exist on a property. A principal use includes all incidental uses. Principal uses are organized into 8 categories:
 - a. Open Space Uses (Sec. 6.1.3.)
 - b. Residential Uses (Sec. 6.1.4.)
 - c. Lodging Uses (Sec. 6.1.5.)
 - d. Commercial Uses (Sec. 6.1.6.)
 - e. Amusement and Recreation Uses (Sec. 6.1.7.)
 - f. Institutional Uses (Sec. 6.1.8.)
 - g. Industrial Uses (Sec. 6.1.9.)
 - h. Transportation and Infrastructure Uses (Sec. 6.1.10.)
2. **Incidental Use.** An incidental use is a use that is commonly integrated into the operation of a principal use, even if the incidental use would be classified as a different use if it were separated. A use cannot be incidental if the principal use does not exist.

EXAMPLE: A cabinet contractor may have an office to run the business within its shop without the office being considered a separate use. As another example, a golf course may sell golf equipment as part of its operation without the pro shop being considered a separate retail use.

3. **Accessory Use.** An accessory use is a use that constitutes a minority of the use or character of the property and is secondary and subordinate to another use of the same property, but which is not an incidental use.
4. **Primary Use.** A primary use is a use to which an accessory use is accessory.
5. **Temporary Use.** A temporary use is a use established for a fixed period of time.

C. Multiple Uses

Each use listed as a separate row in the Use Schedule shall require a permit unless the use is incidental to a permitted use or the use is exempt from a permit.

- c). Natural Resource Buffers (Sec. 5.1.1.)
- d). Wildlife Friendly Fencing (Sec. 5.1.2.)
- e). Wild Animal Feeding (Sec. 5.1.3.)
- f). Air Quality (Sec. 5.1.4.)
- g). Manmade Waterbodies (Sec. 5.1.6.)
- h). Natural Resource Overlay (NRO) Standards (Sec. 5.2.1.)
- i). Exterior Lighting (Sec. 5.3.1.)
- j). Scenic Resource Overlay (SRO) Standards (Sec. 5.3.2.)
- k). Landscaping (Div. 5.5.)
- l). Grading, Erosion Control, and Stormwater except on natural slopes of 30% or greater (Sec. 5.7.2.-Sec. 5.7.4.)
- m). Temporary Gravel Extraction (6.1.12.F.)
- n). Affordable Workforce Housing Standards (Div. 6.3.)
- o). Operational Standards (Div. 6.4.)
- ii. **Permit Exemptions.** Agricultural uses on sites greater than 70 acres are exempt from obtaining the following permits. However, exemption from the requirement to obtain a permit does not grant exemption from any regulations. See subsection 2.d.i, above for applicable regulation exemptions.
 - a). Environmental Analysis (Sec. 8.2.2.)
 - b). Use Permits (Div. 8.4.)
 - c). Grading Permits except on natural slopes of 30% or greater (Sec. 5.7.1.)
 - d). Sketch Plan for physical development (Sec. 8.3.1.)
 - e). Development Plan for physical development (Sec. 8.3.2.)

C. Outdoor Recreation

1. **Definition.** Outdoor recreation is the use of land for passive or active recreational or athletic purposes that requires minimal permanent physical development relative to the open space.
 - a. **Includes:**
 - i. parks
 - ii. arboretums

- b. Accessory residential unit

3. Standards

- a. The home business shall not change the residential character of the site or adversely affect the uses permitted in the zone in which it is located.
- b. A home business shall be operated by a person residing within the dwelling.
- c. A home business shall not have more than 3 total employees, including the owner/operator.
- d. No more than 2 persons residing off-site may be employed on the site of a home business.
- e. No more than 25% of the maximum habitable floor area of the primary dwelling unit shall be occupied by the home business; however, part or all of the nonhabitable floor area in permitted accessory structures may be used for the business.
- f. All vehicles and materials must be stored within buildings.
- g. All parking shall be provided on-site, and shall be located to the rear of the structure or in another location that is visually unobtrusive.
- h. There shall be no window display or other public display of material or merchandise connected with the home business.
- i. No more than one wall sign, not to exceed two 2 square feet in area, shall be permitted.
- j. A Home Business Winery, Cidery or Micro-Brewery operates for the limited purposes of processing/manufacturing, packaging, and shipping of wine, cider or beer.
 - i. The sale of wine, cider or beer produced on site shall be permitted for consumption off-premises only.
 - ii. A Home Business Winery, Cidery, or Micro-Brewery shall not include public tours or the sale of any other products not manufactured by the Home Business either on-premises or off-premises.
 - iii. Private tastings of wine, cider or beer produced on premises shall only be allowed on a parcel and/or lot of 15 acres or greater.
 - iv. Maximum production for a home business winery, cidery or brewery is limited to 20,000 gallons per year for parcels less than 15 acres in size.

G. Special Events

1. **Definition.** An event with over 50 guests on site at one time or with amplified music.
2. **Standards**
 - a. Hosting four or more Special Events per year qualifies as an Outdoor Reception site. See applicable permitting requirements and standards for Outdoor receptions in Sections 6.1.1 and 6.1.3.C.
 - b. Any public gathering of more than 50 guests on site at one time requires obtainment of a Special Event Compliance Certificate from the Teton County Commissioners' Administration Office (Teton County ~~Resolution~~ Resolution 17-033).

1. **Administrative Adjustment.** The Planning Director may establish a lesser parking requirement pursuant to the procedure of Sec. 8.8.1. based on information from reliable sources that demonstrates a lesser standard is workable due to anticipated parking demand **and/or** alternative transportation services available.

7. **Replacement after Damage by Natural Disaster.** Replacement of an attached single-family unit (6.1.4.C.) or apartment (6.1.4.D.) that is demolished or destroyed by a natural disaster or through any manner not willfully accomplished by the owner, regardless of the extent of the demolition or destruction. The replacement shall be complete, or an application to complete shall be sufficient, within 18 months of the date of destruction.
8. **Mobile Home.** A mobile home (6.1.4.E.) or mobile home park (Sec. 7.1.4.).
9. **Dormitory.** A dormitory (6.1.4.F.).
10. **Group Home.** A group home (6.1.4.G.).
11. **Daycare.** A daycare or early childhood education use.
12. **Education.** A private school meeting the definition of Wyo. Stat. §21-4-101.
13. **Accessory Use.** An accessory use (Sec. 6.1.11.) except for Accessory Residential Units over 2,500 sf approved through a Floor Area Option (Section 7.1.5).
14. **Temporary Use.** A temporary use (Sec. 6.1.12.).
15. **Public/Semi-Public Zone.** Employee generating development in the public/semi-public zone.
16. **Alta Reduction.** Employee generating development west of the Tetons shall only be required to provide 25% of the amount of affordable workforce housing calculation pursuant to Sec. 6.3.3.

EXAMPLE: A 5,000 sf office building proposing to add 1,500 sf would be required to provide 0.323 affordable workforce housing units ($0.000215 * 6,500 - 0.000215 * 5,000 = 0.323$). A 3,000 sf detached single family home proposing to add 500 sf would be required to provide 0.017 affordable workforce housing units ($((0.000017 * 3,500 + \text{Exp}(-15.49 + 1.59 * \ln(3,500)))/2.176) - (0.000017 * 3,000 + \text{Exp}(-15.49 + 1.59 * \ln(3,000)))/2.176 = 0.017$).

4. **Change of Use.** In the case of a change of use, the amount of affordable workforce housing required shall be the difference between the requirement for the proposed use and the requirement for the existing use (6.3.2.A.1).

EXAMPLE: A proposal to use a 2,000 sf retail space as an office would be required to include 0.054 affordable workforce housing units ($0.000215 * 2,000 - 0.000188 * 2,000 = 0.054$).

5. **Unknown Use.** For the development of floor area with an unknown use, the allowed use in the zoning district with the greatest need for affordable workforce housing shall be used, except that Restaurant/Bar use shall only be required in association with a Restaurant/Bar use permit.
6. **Sf.** In the calculations “sf” is equal to the habitable floor area (in square feet), including basement, of each residential, lodging, or nonresidential unit. ~~including incidental structures and uses.~~
 - a. The calculation for a multi-unit building shall be the sum of the calculation for each unit.
 - b. Common hallways, entryways, stairways, and other circulation areas in buildings with multiple residential or nonresidential units, that are not within any individual unit, shall not be included in the calculation.
 - c. Room. In the calculations “room” is equal to a single lodging room. In the case of a conventional lodging or short-term rental with multiple bedrooms per unit, the number of rooms used in the calculation shall be the number of bedrooms, not the number of units.
7. **Local Occupancy Restriction.** The calculation for non-local occupancy shall be applied to all residential uses. In order to utilize the local occupancy calculation, a restriction shall be placed on the unit that requires compliance with the occupancy qualification requirement of the Housing Department Rules and Regulations. Placement of an affordable restriction or workforce restriction on a unit, as defined in the Housing Department Rules and Regulations, shall exempt the unit from any requirement pursuant to 6.3.2.C.1. However, 6.3.2.C.1 does not apply to an occupancy restriction placed to utilize the local occupancy calculation.

(August 22, 2013), as amended. The in-lieu fee amounts shall vary by affordability restriction and number of bedrooms. The current in-lieu fee amounts are included in the Administrative Manual.

- b. **Fractional amount.** If a fraction of an affordable workforce housing unit is required, the same fraction of the in-lieu fee amount shall be required.
- c. **Update.** The Board of County Commissioners shall update the fee in-lieu amount annually, by Resolution, based on the cost of developing the required affordable workforce housing and the resale value of the required affordable workforce housing.
 - i. The cost of development shall be provided by the Housing Director to reflect the full development cost of habitable floor area, including land and non-habitable floor area, based on recent past development.
 - ii. Unit sizes shall be assumed to be
 - a). 1 Bedroom/Studio: 650 sf habitable
 - b). 2 Bedroom: 900 sf habitable
 - c). 3 Bedroom: 1,150 sf habitable
 - iii. The maximum sales and rental prices shall be as established by the Housing Department annually pursuant to the Rules and Regulations.
 - iv. The capitalization rate for rental units shall be assumed to be eight percent (8%).
- d. **Timing.** The in-lieu fee shall be paid prior to the granting of the applicable ~~certificate of occupancy~~ building permit or use permit for the employee generating development, whichever occurs first.
- e. **Payment.** In-lieu fees collected shall be immediately deposited into the interest-bearing Affordable Housing Fund.
- f. **Use of Fees.** In-lieu fees, and any interest accrued from in-lieu fees, shall be used for the development of affordable workforce housing that meets the standards of this Division.
- g. **Refund of in-lieu fees**
 - i. **Clawback.** In-lieu fees shall be refunded at the below levels if the required affordable workforce housing is provided by a higher priority method within 2 years.
 - a). **Provision within 1 year.** If the required affordable workforce housing is provided by a higher prior method within 1 year of the payment of the in-lieu fee, 97% of the in-lieu fee shall be refunded.
 - b). **Provision within 2 years.** If the required affordable workforce housing is provided by a higher prior method within 2 years of the payment of the in-lieu fee, 95% of the in-lieu fee shall be refunded.

Div. 6.4. Operational Standards

6.4.1. Outside Storage (1/4/21AMD2022-0004)

All uses shall conform with the following standards; except that, agricultural operations meeting the standards for exemption in Section 6.1.3.B. shall be exempt from all standards of this Division.

A. Use of Street Yards

The use of the street yard of a residential use for the storage of boats, snowmobiles, trailers, RVs, and similar motor vehicles and equipment is prohibited.

B. Storage of Structures

The storing of structures of any kind is prohibited, including mobile or manufactured homes which are abandoned, unoccupied or not connected to a legal sewage disposal facility.

1. Historic Structures

- a. Structures that are being relocated from one site to another, within Teton County (including from within the Town of Jackson), that are on the list of Historically Significant Properties can temporarily be stored on the receiving site for a maximum of 180 days. Within the temporary storage timeframe, a building permit must be attained-obtained, so that the structure may be permanently located at the receiving site. Physical development setbacks apply to this new relocation location.

C. Storage on Vacant Property

For the purpose of this subsection, lots of record that are normally kept and maintained as part of a residential site that includes multiple lots of record shall not be considered vacant property, provided vehicles, equipment, or materials, stored thereon are owned, supervised, and controlled by an occupant of the residence.

1. Vehicles

- a. The storage of any abandoned vehicle for more than 30 consecutive days on vacant property, which presents a threat to the health or safety of the public, is prohibited.
- b. A vehicle (as defined in Wyo. Stat. §31-13-101(a)(ix)) shall be presumed to be abandoned if it is in an inoperable condition and is not currently registered.

2. Equipment and Materials

- a. The temporary storage of equipment or materials for more than 30 consecutive days on vacant property, ~~which presents a threat to the health or safety of the public,~~ is prohibited.

- b. Temporary storage of equipment or materials for the purpose of construction staging on the same site is not prohibited if authorized ~~or permitted:~~ by an active building permit.

D. Outdoor Display

The organized outdoor display of goods for sale in association with a nonresidential use is allowed, provided it is contained on private property.

6.4.2. Refuse and Recycling (7/19/16)

All uses shall conform with the following standards; except that, agricultural operations meeting the standards for exemption in Section 6.1.3.B. shall be exempt from all standards of this Division.

A. Definition

Refuse includes but is not limited to, the accumulation of materials, debris, garbage, waste recyclables, decayed matter, carcasses, other scrap or junk materials, combustible materials, waste petroleum or other chemical product or solid waste, commercial or household appliances, and household or commercial building parts and fixtures.

B. Refuse and Recycle Facilities

1. **Storage Facilities.** Residential and nonresidential uses shall provide containers or dumpsters to store all refuse and recyclable items accumulated between regularly scheduled transfers from the site.
2. **Containers and Dumpsters to be Bear Resistant.** Containers and dumpsters used to store refuse and recyclable items shall comply with Sec. 5.2.2.
3. **Containers and Dumpsters to be Screened.** For nonresidential uses and residential uses of 4 or more units, refuse and recycle containers and dumpsters shall be stored in a building or screened on all sides to prevent viewing from adjoining streets and properties.
 - a. **Screening Materials.** Screening shall consist of landscaping, earth berms, fencing or walls built of materials and finishes that are compatible with surrounding structures. Chain-link fences with solid slats are prohibited for purposes of screening. The Planning Director may waive the required setbacks if earth berms, fencing, or walls are determined by the Director to be the most appropriate screening type and it is impossible for the earth berm, fence, or wall to meet the required setbacks without unnecessarily constraining the owner's property.
 - b. **Bear Resistant Enclosure.** A bear resistant outdoor enclosure may be designed and constructed to also function as screening.
4. **Temporary Dumpsters at Construction Sites.** Temporary dumpsters placed at active construction sites are exempt from the standards outlined in Sec. 5.2.2. provided only construction materials are placed in the dumpster.
5. **Locations of Dumpsters and Enclosures.** Dumpsters and outdoor enclosures shall be located to:

1. Scale**Development Area**

GSA in development area (max)	10%	B
Development area GSA :	1 : 9	B : A
Conservation area GSA (max)		

**Additional Floor Area**

Additional floor area (max)	10,000 sf per 35 ac GSA	(C.3.a.)
-----------------------------	----------------------------	----------

Additional ARUs

Additional ARUs (max)	2 ARUs per 35 ac GSA	(C.4.b.)
-----------------------	-------------------------	----------

EXAMPLE. A 40 acre site utilizing a Floor Area Option can reserve a maximum of 4 acres in development area ($40 * 10\% = 4$, $4:36 = 1:9$).

2. **Access across conservation area.** Access to a development area that crosses a conservation area shall be counted as conservation area in calculation of the maximum development area.
3. **Physical Development Allowance.** Except as modified in this Section, the physical development standards applicable in the zone shall apply to the Floor Area Option development.
 - a. **Additional Floor Area.** Allowed additional floor area is in addition to the floor area allowed on the site in the absence of an approved Floor Area Option.

EXAMPLE. A 40 acre site in the R-2 zone is allowed 13,000 sf of floor area by-right. With approval of a Floor Area Option the same site would be allowed 24,428 sf ($13,000 + 10,000 * 40/35$).

- b. **Construction.** Best practices shall be utilized to minimize the impact of construction within the development area on the protected conservation value(s) of the conservation area.

4. **Use Allowance.** Except as modified in this Section, the use standards applicable in the zone shall apply to the Floor Area Option development.

- a. **Conditional use of additional floor area.** The amount of additional floor area that can be used by a conditional use shall be established through the CUP in order to consistently limit intensity through the use and development option permits.

- b. **Additional Accessory Residential Units.** Allowed additional ARUs are in addition to the ARUs allowed on the site in the absence of an approved Floor Area Option. However, all ARUs on a site with an approved Floor Area Option shall be subject to the following standards:

- i. The maximum scale of an ARU, including basement, shall be 5,000 square feet of gross floor area.
 - ii. An ARU greater than 2,500 square feet of habitable floor shall be subject to the affordable workforce housing requirements for a Detached Single-family unit (unrestricted) in Division 6.3.
 - iii. The floor area of an ARU in a Floor Area Option shall not be included in the maximum scale of the detached single-family unit to which it is accessory.

EXAMPLE. A 40 acre site in the R-2 zone is allowed 1 ARU, which may not exceed 1,000 sf, within an allowance of 13,000 sf of gross floor area of which 8,000 may be habitable. With approval of a Floor Area Option the same site would be allowed 3 ARUs ($1 + 2 * 40/35$), none of which may exceed 5,000 sf, within an allowance of 24,428 sf of gross floor area.

5. **Development Option Standards.** Except as modified in this Section, the development option standards applicable in the zone shall apply to the Floor Area Option development.

6. **Affordable Workforce Housing.** An ARU of greater than 1,000 square feet of habitable floor area shall be subject to the affordable workforce housing requirements of Div. 6.3.

Div. 7.3. Conservation Area Standards

7.3.1. Purpose and Applicability (4/1/16)

A. Purpose and Intent

The purpose of this Division is to establish standards for required conservation areas. The intent is to prioritize the use of certain best practices to ensure that a required conservation area achieves the community's goals for ecosystem stewardship identified in the Comprehensive Plan.

B. Applicability

This Division shall apply to any physical development, use, or development option that requires a conservation area.

C. Coordination

The prospective conservation easement holder should be involved in the process of conservation value identification and establishment of baseline inventory so that the conservation area configuration and inventory meets the needs of the easement holder as well as the requirements of these LDRs.

EXAMPLE: The land trust that will hold the conservation easement for a conservation area with wildlife value should be involved in the EA pre-application conference and alternatives analysis to ensure the habitat inventory and development area location meets its requirements as well as the standards of these LDRs.

7.3.2. Conservation Value Identification (4/1/16AMD2022-0004)

A. Conservation Values

Any of the conservation values listed below that are present in the conservation area shall be identified and protected by the conservation easement recorded pursuant to Sec. 7.3.4.

1. **Wildlife.** Where wildlife habitats identified by Sec. 5.2.1. or Sec. 5.1.1. exist, protection of wildlife, wildlife habitat, and wildlife permeability shall be a conservation value.
2. **Scenic.** Where scenic vistas identified by Sec. 5.3.2. exist, protection of those scenic vistas shall be a conservation value.
3. **Agriculture.** Where active agriculture exists, protection of agricultural use of the site shall be a conservation value.
4. **Recreation/Access.** If no other conservation value exists on the site, provision of public access and recreation shall be a conservation value. Granting of public access to a conservation area is not required when public access is not a protected conservation value. Recreation value alone can not be used to utilize the conservation development option.

Div. 7.4. [deleted] (7/18/18)

[Division number reserved, original Division deleted]

Div. 7.5. Development Exaction Standards

7.5.1. Development Exactions (1/6/20)

[Section number reserved, original Section deleted]

7.5.2. Park Exactions (1/6/20)

A. Purpose and Findings

1. **Purpose.** The purpose of the Park Exaction is to ensure that new subdivisions include adequate land for parks and recreation in order to maintain the parks and recreation level of service in the community as growth occurs.
2. **Legislative Finding of Impact and Benefit**
 - a. Parks and recreation services benefit the health of the environment and the community. Parks protect natural resources in developed areas and recreational services are important to the physical health of community members of all ages.
 - b. In addition, the community has adopted a policy to provide public recreation opportunities on Town and County lands as way to reduce the impact of growth on surrounding federal lands with greater habitat and scenic value.
 - c. Parks and recreation level of service is commonly measured by acres of parks per capita.
 - i. The national median for communities with a population between 20,000 and 49,999 is 9.6 acres of parks per 1,000 residents. (2019 NRPA Agency Performance Review)
 - ii. In 2016, the Jackson/Teton County community has 7.0 acres of parks per 1,000 residents.
 - d. As growth occurs, population grows. From 2002 to 2018 the annual growth rate for residential units in Jackson and Teton County was 1.6%. Over that same period the population of Teton County grew at an annual growth rate of 1.4%, mirroring the growth in development.
 - e. If acres of park land do not grow as population grows, parks and recreation level of service will decrease.
 - f. As a result, the Board of County Commissioners finds that new residential development in Teton County needs to include land for new parks and hereby adopts this park exaction.

- c. **NC-TC.** All development located within the NC-TC zone, or within the WHB, NR-1, R-1, R-2 or R-3 zones on land zoned NC-TC on March 31, 2016, except new subdivision, habitat ponds, and berms.
- d. **Detached Single-Family Dwelling.** Physical development of a detached single-family dwelling if:
 - i. The proposed location is not within the NRO;
 - ii. It is the only dwelling unit on the lot of record, or the density on the site is less than or equal to one dwelling unit per 35 acres of base site area; and
 - iii. Compliance with all setback and buffer standards in Div. 5.1. and Div. 5.2. is demonstrated.
- e. **Expansion.** Expansion of an existing building or the addition of an accessory structure within the impact area of the existing building.
- f. **Conservation Easement.** Land subject to a conservation easement held by a formal land trust that has a mandate to protect conservation values, for which a rigorous review and study of the conservation values of the land has been performed as a basis for establishing the easement, if the applicant demonstrates that the review and study satisfies the objectives of the EA. In such instances the review and study completed for the conservation easement may be substituted for the EA.
- g. **Other.** The Planning Director may waive the requirement for an EA if the development complies with the following:
 - i. The lot of record is outside the NRO and the application demonstrates compliance with all setback and buffer standards in Div. 5.1. and Div. 5.2.; or
 - ii. The lot of record is in the NRO but is also in an area that has well-documented habitat information where additional physical development, use, development options and subdivision is anticipated to have minimal additional negative impacts to animal species protected by Sec. 5.2.1. While an EA is not required for lands meeting this exemption, development on such lands shall still be subject to certain standards for development determined appropriate by the Planning Director or the Board of County Commissioners.

C. Professional Preparation

An EA shall be prepared by an environmental professional with expertise in the subject of environmental sciences based on education, professional certifications, experience in the field, and their understating of these LDRs, the Jackson/Teton County Comprehensive Plan, and the goals and objectives thereof.

1. For the following applications the environmental professional shall be hired by the applicant:
 - a. Building permit;
 - b. Grading permit;
 - c. Basic use permit; or
 - d. Development option plan.

2. For the following applications the environmental professional shall be hired by Teton County at the cost of the applicant pursuant to the process for identifying, selecting, and compensating a qualified EA consultant established in the Administrative Manual:
 - a. Sketch plan;
 - b. Development plan;
 - c. Conditional use permit;
 - d. Special use permit; or
 - e. Planned Unit Development.
3. For applications with a County hired consultant, the applicant may hire an additional environmental professional to submit the applicant's own EA and/or review and comment on the EA prepared by the Teton County contracted EA consultant. The applicant's chosen environmental professional shall provide documentation of qualifications upon the request of the Planning Director.

D. Substantial Changes

When changes are made to the proposal after the EA has been completed, so that the accuracy of the EA is significantly compromised, the Planning Director may require that the applicant provide updated analysis data to address the changes.

E. Expiration

1. An EA that is completed 3 or more years before the submittal of the associated application shall not be considered current and shall not meet the requirements of this Section.
2. Notwithstanding the standard above, the Planning Director may require a wholly new or amended EA for EAs that are less than 3 years old if the standards or circumstances analyzed have been altered significantly.
3. The Planning Director may extend the expiration date of an EA beyond 3 years if:
 - a. No significant development has occurred in the vicinity of the proposed development that would significantly alter wildlife patterns or habitat; and
 - b. There have been no other significant changes that render the analysis and conclusions in the EA outdated or inaccurate.

F. Review Process

All steps and deadlines in the following chart are required unless noted otherwise. An applicant must complete ~~the~~ each step before moving to the step below.

SUBMITTAL

8.2.4. Application Submittal (~~1/1/17~~AMD2022-0004)

A. Authority to Submit

Unless expressly stated otherwise in these LDRs, applications reviewed under these LDRs shall be submitted by the owner, contract purchaser, or any other person having a recognized property interest in the land of the proposal.

1. The application may be submitted instead by a person authorized by a notarized letter or document signed by the owner, contract purchaser, or other person having a recognized property interest in the land of the proposal.
2. If there are multiple owners, contract purchasers, or other persons authorized to submit the application, all such persons shall sign the application or a letter or document consenting to the application.

B. Application Acceptance

Applications required by these LDRs shall be submitted to the Planning Department in hard copy and electronically, as practicable, in a form provided by the Planning Department and shall be accompanied by:

1. The applicable fee required by the fee schedule maintained in the Administrative Manual; and
2. Sufficient information to determine compliance with these LDRs as determined pursuant to Sec. 8.2.5.

C. Application Examination

Any person may examine an application and any submitted supporting or opposing materials and reviews at any time during normal business hours at the Planning Department, upon reasonable request. Copies of materials shall be made available upon reasonable notice, at cost.

D. Application Consolidation

The application review process is intended to encourage efficient processing. Applicants are encouraged to consolidate the review of concurrent applications for a single site to the extent practical. Appropriate application consolidation will be established at the pre-application conference or by the Planning Director and may include the waiver of overlapping application requirements. The Planning Director may require application consolidation where the information from one application is necessary to review the compliance of another application.

E. Revisions

If an application is modified after it is declared sufficient, updated digital and hard copies that identify the changes shall be submitted to the Planning Department along with a cover memo that explains all changes.

B. Amount

The financial assurance shall be at least 125% of the cost to complete the improvements, implement the plan, or complete other work approved as part of the permit or approval. The cost shall be identified in the form of an estimate approved by the Planning Director. The Planning Director may require that the estimate be prepared by a professional engineer, landscape architect, or other professional licensed or certified to practice in the State of Wyoming. The amount of the financial assurance required may be reviewed and adjusted from time to time by the Planning Director.

C. Acceptable Types of Financial Assurance

The applicant shall provide one of the following types of financial assurances in a form that is acceptable to the Planning Director.

1. **Surety Bonds.** A deposit with the County Treasurer of a good and sufficient performance bond in a form made available by the Planning Director or otherwise determined acceptable by the County Attorney.
2. **Escrow Deposit of Cash or Certified Funds.** A deposit with the County Treasurer of cash or certified funds.
3. **Irrevocable Letter of Credit.** A deposit with the County Treasurer of an irrevocable letter of credit in a form made available by the Planning Director or otherwise determined acceptable by the County Attorney.
4. **Other Types of Security.** An applicant may provide other financial assurance by other methods or instruments as approved by the County Attorney.

D. Financial Assurance Agreement

Unless exempted by the Planning Director, whenever financial assurance is required, the applicant shall enter into a Financial Assurance Agreement in a form acceptable to the County Attorney. In the case of subdivision improvements this agreement shall take the form of a Subdivision Improvements Agreement.

E. Warranty

1. The acceptance of a surety may be limited by the Planning Director or County Engineer based on weather conditions or unique circumstances.
2. Unless exempted by the Planning Director, all public improvements and required mitigation shall be warranted by the applicant for a period of two 2 years following completion and final inspection of all such improvements or work.

F. Duration

The financial assurance shall remain in effect until the Planning Director has determined the required action has been completed in accordance the financial assurance agreement or other terms of the assurance. If applicable, the financial assurance shall remain in effect through the warranty period.

G. Release of Financial Assurance

As the required actions are taken, the applicant may apply for a full or partial release of the financial assurance in accordance with this Section and the Financial Assurance Agreement. Upon verification that the required action has been

for which all approved development has been completed shall not be amended. Redevelopment of such a development shall be achieved through application for a new approval.

B. Physical Development Permit, Use Permit, and Development Option Plan Amendment

1. **General.** All changes to an approved physical development permit, use permit, or development option plan not qualifying as minor deviations shall be considered amendments and shall be reviewed subject to the current procedures and standards of these LDRs.
 - a. The threshold for review of the amendment shall be based on the net change of density or intensity, not the gross intensity of the initial approval, with the following exceptions.
 - i. The Planning Director may elevate the threshold for review in the case of incremental amendments that total a larger change.
 - ii. The Planning Director may waive the requirement for a Sketch Plan where the proposed amendment remains consistent with the original Sketch Plan approval.
 - b. A condition of approval placed on a permit or approval by a decision-making body shall only be amended by that body at a public hearing held pursuant to Sec. 8.2.14.
 - c. Review of an amendment shall be limited to the proposed change. Nonchanging portions of the approval shall only be affected as explicitly required by Div. 1.9, or another portion of these LDRs.
2. **Minor Deviations.** Authorized minor deviations from an approved physical development permit, use permit, or development option plan are changes that appear necessary in light of technical or engineering considerations first discovered during development or use that were not reasonably anticipated during the initial approval process. A minor deviation may be approved by the Planning Director pursuant to the process for a Zoning Compliance Verification (Sec. 8.6.2.) upon finding that it:
 - a. Complies with the standards of the current LDRs;
 - b. Does not include reductions in the amount of conservation area set aside or required resource protection; and
 - c. Does not include increases in the amount of building floor area.

C. Subdivision Plat Amendment

1. **Applicability.** A recorded plat may be amended through the vacation process as authorized by state statute. Any vacation or amendment to a recorded plat shall be subject to the standards of this Subsection. This includes the following corrections.
 - a. **Incorrect or Erroneous Survey.** Where the exterior boundaries of the subdivision must be changed due to an incorrect or erroneous survey, or an omission of a strip of land between the subdivision boundary and an aliquot part or right-of-way line, an amended plat is required.

2. **Mailed Notice.** Notice of a public hearing on an application shall be mailed at least 30 days prior to the public hearing.
 - a. The notice shall be mailed to:
 - i. The owner(s) of the land subject to the application and designated agent(s); and
 - ii. Landowners within 800 feet of the land subject to the application, or if the land subject to the application is zoned R-TC, landowners 1,300 feet of the land subject to the application.
 - b. The applicant shall pay a fee to the Planning Department for any mailing in excess of 25 notices.
 - c. Mailed notice is not required for LDR text amendments when their applicability is county-wide.
3. **Notice in Newspaper.** Each public hearing on an application shall be advertised in ~~the legal notice section of a~~ newspaper of general circulation in the County no less than 15 days prior to the date of the public hearing. Except that, a public hearing on a decision to amend the LDRs shall be advertised no less than 30 days prior to the Planning Commission public hearing date and 45 days prior to Board of County Commissioners public hearing date, pursuant to Wyo. Stat. § 16-3-103 .
4. **Posted Notice.** The applicant shall post and maintain notice of the public hearing on the land subject to the application. The posted notice shall meet the following standards.
 - a. **Content.** The posted notice shall contain the notice content required by Subsection 1 above, except the description of the location of the land subject to the application. A template is available in the Administrative Manual.
 - b. **Timing.** The notice shall be posted for at least 10 days prior to the hearing, and shall be removed within 5 days following the hearing. The applicant shall notify staff of the date posted and date removed.
 - c. **Size.** The notice shall be 3 ft by 4 ft.
 - d. **Location and Legibility.** A notice shall be placed along each front lot line so as to be legible from each access point to the site. The notice may be mounted to a building. If the notice is freestanding, it should be set back 2 ft from any lot line or access easement.
 - e. **Sign Permit Exempt.** The notice shall be exempt from the standards of Div. 5.6 and shall not be lighted.
5. **Requested Notice.** Any person who makes a written request shall be provided notification of all public hearings upon payment of the costs of the processing and mailing of the notification.
6. **Postponed or Continued Hearing.** Additional notice is not required when a hearing is postponed or continued to a date certain.

8.3.1. Sketch Plan (1/4/21AMD2022-0004)

A. Purpose

The purpose of a sketch plan is to publicly review a large physical development or development option for general consistency with these LDRs at a preliminary, conceptual level of detail before the development is fully designed. Plans must include a conceptual plan related to infrastructure including: road layout, location of development, utilities, water, sewer, power, and gas. The objectives of the sketch plan review are:

1. Identification of the opportunities to achieve the desired future character for the site;
2. Identification of development related issues to be addressed through the development plan;
3. Discussion of alternative site designs that may better implement these LDRs; and
4. Identification of natural and scenic resource protected by these LDRs.

B. Applicability

1. Physical development that requires a sketch plan is identified in the standards for each zone. See Article 2.-Article 4. for zone standards.
2. A sketch plan application within a Planned Unit Development (PUD) must include all land in the PUD.

C. Findings for Approval

A sketch plan shall be approved upon finding the application:

1. Is consistent with the desired future character described for the site in the Jackson/Teton County Comprehensive Plan;
2. Achieves the standards and objective of the Natural Resource Overlay (NRO) and Scenic Resources Overlay (SRO), if applicable;
3. Does not have significant impact on public facilities and services, including transportation, potable water and wastewater facilities, parks, schools, police, fire, and EMS facilities;

4. Complies with all relevant standards of these LDRs and other County Resolutions as can be determined by the level of detail of a sketch plan; and
5. Is in substantial conformance with all standards or conditions of any prior applicable permits or approvals.

D. Effect of Approval

Sketch plan approval permits the submittal of a development plan; it does not permit actual physical development or subdivision of land.

E. Expiration

A sketch plan shall expire 2 years after the date of approval except under one of the following circumstances:

1. A sufficient development plan application to implement the sketch plan is submitted and approval of the development plan is being pursued in good faith;
2. An approved development plan is being implemented;
3. In the case of a phased development, not more than 2 years have passed since the issuance of a certificate of occupancy for physical development approved by the sketch plan; or
4. An alternate expiration is set through the approval of the sketch plan.

F. Review Process

All steps and deadlines in the following chart are required unless noted otherwise. An applicant must complete each step before moving to the step below.

Div. 8.7. Amendments to the LDRs

Amending the LDRs is a matter committed to the legislative discretion of the Board of County Commissioners. There are 3 types of amendments to the LDRs:

- A. LDR Text Amendments that change the language in the LDRs;
- B. Zoning Map Amendments that change the zoning classification of a property and therefore the applicable LDRs; and
- C. Planned Unit Developments that establish a development-specific zoning classification and standards for a site.

8.7.1. LDR Text Amendment (~~1/4/21~~AMD2022-0004)

A. Purpose

The purpose of an LDR text amendment is to publicly review a change to these LDRs to ensure that it improves implementation of the Jackson/Teton County Comprehensive Plan or address other health, safety, or welfare issues in the community.

B. Applicability

All LDR text amendments shall be reviewed pursuant to this Section, which is adopted pursuant to the Wyoming Administrative Procedures Act.

C. ~~Findings~~Factors for Approval

The advisability of amending the text of these LDRs is a matter committed to the legislative discretion of the Board of County Commissioners and is not controlled by any one factor. In deciding to adopt or deny a proposed LDR text amendment the Board of County Commissioners shall consider factors including, but not limited to, the extent to which the proposed amendment:

1. Is consistent with the purposes and organization of the LDRs;
2. Improves the consistency of the LDRs with other provisions of the LDRs;
3. Provides flexibility for landowners within standards that clearly define desired character;
4. Is necessary to address changing conditions, public necessity, and/or state or federal legislation;
5. Improves implementation of the Comprehensive Plan; and
6. Is consistent with other adopted County Resolutions.

D. Review Process

All steps and deadlines in the following chart are required unless noted otherwise. An applicant must complete each step before moving to the step below.

8.7.2. Zoning Map Amendment (~~1/4/21~~AMD2022-0004)

A. Purpose

The purpose of zoning map amendment is to publicly review a change to the Official Zoning Map to ensure that it improves implementation of the Jackson/Teton County Comprehensive Plan or address other health, safety, or welfare issues in the community.

B. Applicability

All zoning map amendments shall be reviewed pursuant to this Section, which is adopted pursuant to the Wyoming Administrative Procedures Act.

C. ~~Findings for Approval~~Factors for Approval

The advisability of amending the Official Zoning Map is a matter committed to the legislative discretion of the Board of County Commissioners and is not controlled by any one factor. In deciding to adopt or deny a proposed zoning map amendment the Board of County Commissioners shall consider factors including, but not limited to, the extent to which the proposed amendment:

1. Is consistent with the purposes and organization of the LDRs;
2. Improves implementation of the desired future character defined in the Illustration of Our Vision chapter of the Comprehensive Plan;
3. Is necessary to address changing conditions or a public necessity; and
4. Is consistent with the other adopted County Resolutions.

D. Review Process

All steps and deadlines in the following chart are required unless noted otherwise. An applicant must complete each step before moving to the step below.

D. Minimum Site Area

Minimum site area is the minimum gross site area or minimum base site area, as specified, required to permit a use or development option. On sites in more than one zone, the entire site may be used to meet minimum site area requirements in either zone. On sites with multiple uses or development options, the entire site may be used to meet minimum site area requirements for each use or development option.

9.4.5. Floor Area (1/1/15)

Floor area is the area of all floors interior to an enclosed building that have at least 5 feet of clearance between floor and ceiling. Floor area shall be measured to the exterior face of the structural members of the wall. Roofed architectural recesses and open covered porches are not considered interior to the building. A building with at least 50% of its perimeter open to the outside shall not be considered enclosed.

9.4.6. Density/Intensity (5/3/21AMD2022-0004)

The following standards shall apply to the calculation of maximum density, maximum floor area, minimum landscape surface area, and maximum site development.

A. General

1. **Split Zoning.** On sites in multiple zones, calculations shall be based on the base site area, or gross site area in character zones (Div. 2.2, Div. 3.2.), in each zone.
2. **Mixed Use.** On sites with multiple uses, the base site area, or gross site area in character zones (Div. 2.2., Div. 3.2.), shall be prorated to determine the allowed density/intensity of each use.

EXAMPLE: On a base site area of 30,000 square feet with an FAR of 0.3 for a single family unit, a 3,000 square foot single family unit would occupy 10,000 square feet of the base site area ($3,000/.3 = 10,000$), leaving 20,000 square feet of base site area left to calculate the remaining maximum floor area for other uses on the property.

B. Maximum Density

Unless stated otherwise for a specific provision of these LDRs, density is calculated by dividing the number of units by the base site area, or gross site area in character zones (Div. 2.2, Div. 3.2.).

EXAMPLE: 3 units on 35 acres of base site area is a density of 0.086 units/acre ($3/35 = .086$).

C. Floor Area Ratio (FAR)/Maximum Floor Area

1. The maximum floor area (see Sec. 9.4.5. for definition of Floor Area) allowed on a site shall be the maximum gross floor area not including basement floor area, as defined in Sec. 9.5.B.

2. The site area used to calculate maximum floor area shall be:
 - a. Gross Site Area in Character Zones (Div. 2.2. & Div. 3.2.); and
 - b. Base Site Area in Legacy Zones (Div. 2.3. & Div. 3.3.).
3. Unless otherwise defined in these LDRs, the maximum allowed floor area above grade is calculated by multiplying the allowed **floor area ratio (FAR)** by the applicable site area. Inversely, FAR is calculated by dividing the gross floor area above grade by the applicable site area

EXAMPLE: On a site area of 24,000 square feet a building with 8,000 square feet of gross floor area where 2,000 square feet was in the basement would have an FAR of .25 $((8,000-2,000)/24,000 = .25)$.

D. Landscape Surface Ratio (LSR)/Minimum Landscape Surface Area

The landscape surface ratio (LSR) is calculated by dividing the landscape surface area by the base site area, or gross site area in character zones (Div. 2.2. Div. 3.2.). However, for properties that include private or public road easements, no site development within the road easement shall count against the required LSR.

EXAMPLE: A property that has 6,000 square feet of landscape surface area and a base site area of 24,000 square feet has an LSR of .25 $(6,000/24,000 = .25)$. Unless otherwise defined in these LDRs, the minimum required amount of landscape surface area is calculated by multiplying the required LSR by the base site area (see Sec. 9.5.L. for definition of Landscape Surface Area). Facilities specifically permitted in Sec. 5.5.3., public and neighborhood pathways, and flood control levees are excluded from landscape surface ratio and minimum landscape surface area calculations.

E. Site Development Ratio (SDR)/Maximum Site Development

The site development ratio (SDR) is calculated by dividing the site development by the adjusted site area, or gross site area in character zones (Div. 2.2. Div. 3.2.). However, for properties that include private or public road easements, no site development within the road easement shall count against the maximum site development allowance.

EXAMPLE: A property that has 12,000 square feet of site development and an adjusted site area of 24,000 square feet has an SDR of .5 $(12,000/24,000 = .5)$. Unless otherwise defined in these LDRs, the maximum allowed site development is calculated by multiplying the required SDR by the adjusted site area (see Sec. 9.5.S for definition of Site Development).

F. Minimum Lot Size

Minimum lot size means the required minimum gross site area of a newly created lot of record, including remnant parcels.

9.4.9. Height (1/4/21)

A. Height of Any Point

The height of a building or structure is the vertical dimension measured from any point on the exterior of the building or structure to the nearest point of finished grade.

EXAMPLE: In the diagram below the nearest point of finished grade is indicated by the white or gray arrows. Note the examples of points that are equidistant to finished grade on 2 sides of the house; height of such a point will be determined by the lower finished grade.

B. Overall Height of a Stepped Structure

In addition, on a sloped site where the height of the structure is stepped up the slope, the vertical dimension measured from the overall highest point of the building or structure to the overall lowest point of finished grade adjacent to the structure shall not exceed 125% of the maximum allowable height, measured from any point as described in 9.4.9.A. A stepped structure shall also comply with height at any point as described above in Section 9.4.9.A.

EXAMPLE: The diagram below shows a stepped structure that is compliant with maximum allowable height, as measured from any point on the roof, but is in violation of the overall height limit for a stepped structure (125% of the maximum allowable height, as measured from the highest point of the building to the lowest point of finished grade). Both measurements of height apply.

C. Exceptions

No part of any building or structure may exceed the maximum allowable height except for the following:

1. Chimneys, vents, and roof-top mechanical equipment such as HVAC systems, provided that the maximum height is not exceeded by more than 4 feet; or
2. Antenna used for the reception of television broadcast signals.

9.4.10. Lot Line (1/4/21)

A lot line is a line bounding a lot of record which divides one lot of record from another lot of record or from a street.

A. Street Lot Line

Street lot line means a lot line contiguous with a road right-of-way or roadway.

B. Front Lot Line

Front lot line means the street lot line or the lot line across which access is taken.

E ~~(1/4/21AMD2022-0004)~~

Earth Sheltered Design. Earth sheltered design means a building whose mass is built fully or partly below the land surface, or which sits above natural grade but has been covered with earth so that at least 50% of the perimeter of the building is concealed from view.

Easement. Easement means a less than fee interest in land, which provides a person other than the owner of the land certain rights over that land, or any designated part of that land, for the purposes specified.

Education. See 6.1.8.C.

Eligible Support Structure. An existing tower or base station as defined herein.

Emergency Work. Work which must be performed immediately to save lives or to protect improved property, public health and safety, or to avert or lessen the threat of a major disaster.

Employee generating development. Employee generating development is a new building or use not currently in existence, as further defined by Sec. 6.3.2.A. It is a term describing development that requires provision of affordable workforce housing pursuant to Div. 6.3., unless exempt in that Division.

Employee Housing. 1) A unit subject to an Employee Housing restriction as defined in the Housing Department Rules and Regulations, such units were required by Division 6.3 as it existed prior to July 18, 2018. 2) A unit occupied by an employee of a business on the site.

Equipment Cabinet. Any structure above the base flood elevation including cabinets, shelters, pedestals, and other similar structures and used exclusively to contain radio or other equipment necessary for the transmission or reception of wireless communications signals.
